ABOUT

Final-year B Tech Computer Science (Data Science) student with a strong foundation in Data Structures, Algorithms, Object-Oriented Programming, Operating Systems, and Database Management Systems. Experienced in building full-stack applications with REST APIs, exploring cloud computing on AWS, and working in Agile development environments. A proactive learner with strong analytical and communication skills, eager to contribute to scalable, customer-facing software systems.

EDUCATION

- MGMU Jawaharlal Nehru Engineering College of Chhatrapati Sambhaji Naga(r2023–2027) — Data Science
- MVR Shidhe College Of Deulgaon Bazar (2020–2022) — HSC (12th), 78.00%
- Holy Faith English School Bharadi (2020–2021) — SSC (10th), 75.60%

PROJECTS

1. MAAJH GAAV (MY VILLAGE) — FULL-STACK WEB APPLICATION (REACT, NODE.JS, EXPRESS.JS, MONGODB)

- Built and integrated REST APIs (GET, POST, PUT, DELETE) to connect a React frontend with a Node.js/Express backend, enabling full CRUD functionality for application data.
- Designed MongoDB schemas to store and manage application data, handling data fetching, creation, updates, and deletion between frontend and backend.
- Set up a basic CI workflow using GitHub Actions to automatically build and check the project on every push, laying the groundwork for automated testing and verification.

2. In-Memory Key-Value Store with LRU Caching (Java)

- Designed and implemented a custom in-memory key-value store from scratch in Java, using a hash map combined with a doubly linked list to achieve O(1) get/put operations with LRU eviction
- Added thread-safe access using synchronization and TTL-based key expiration, and benchmarked performance under concurrent read/write loads.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C, C++, JavaScript
- **Web Development:** React, Node.js, Express.js, REST API design & integration
- **Core CS Fundamentals**: Data Structures, Algorithms, Complexity Analysis, Object-Oriented Programming
- **Systems:** Operating Systems, Database Management Systems, Software Engineering Fundamentals
- **Databases**: MySQL, MongoDB (Relational & NoSQL)
- **Development:** Agile Methodology, CI/CD basics (GitHub Actions), Debugging & Testing, Version Control
- **Tools & Technologies:** Git, GitHub, GitHub Actions, VS Code, Jupyter Notebook

ACHIEVEMENTS & CAMPUS INVOLVEMENT

- **Microsoft Excel Beginners To Advance** - Skill Course (Certificate ID: SC-5V7GRBFOT8)
- **Microsoft Software Engineer** - Skill Course
- **Microsoft AI Course** - Skill Course
